How to Sew the 5-color, 18" finished Carpenter's Wheel Block:

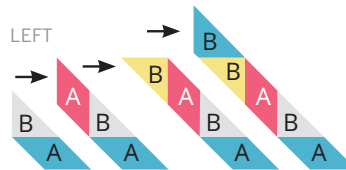

*1) It's a good idea to lay out the block pieces before you start sewing. 2) This block's quarter units include shapes that mirror each other. If your block includes fabrics that need to face a certain way, you will need to fanfold your fabric on the die when cutting those shapes. 3) Press ¼" seams open unless otherwise noted in the pattern.

Step 1

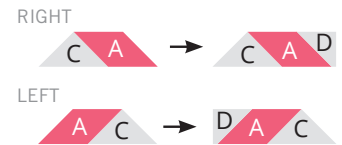

Sew 2 A pieces and 3 B pieces together in colors as shown to make right facing A/B/A/B unit. Make 4 units.

Step 2

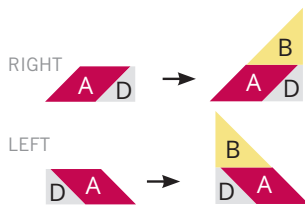

Sew 2 A pieces and 3 B pieces together in colors as shown to make left facing A/B/A/B unit. Make 4 units.

Step 3

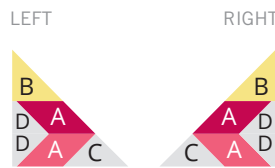

Sew piece C and A, then add D as shown to make right facing C/A/D unit. Then follow the same steps to make left facing C/A/D unit. Make 4 units of each.

Step 4

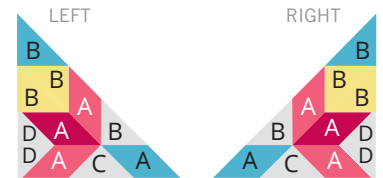

Sew piece A and D, then add B as shown to make right facing A/B/D unit. Then follow the same steps to make left facing A/B/D unit. Make 4 units of each.

Step 5

Sew C/A/D unit (from step 3) to A/B/D unit (from step 4) as shown. Make 4 right facing units and 4 left facing units.

Step 6

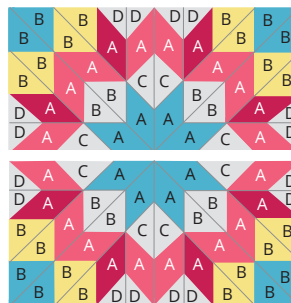

Sew A/B/A/B/B unit (from steps 1 & 2) to C/A/D/A/B/D unit (from step 5) as shown. Make 4 right facing units and 4 left facing units.

Step 7

Sew together the two units (from step 6). Make 4 quarter units.

Step 8

Sew quarter units into rows, then sew rows together. Block should measure 18½" square.
